**Max Planck Lecture January 2010**

## Prof. Dr. Gerardus 't Hooft

In 1999 the Nobel Prize was awarded to both, Gerardus 't Hooft and his thesis supervisor Martinus Veltman for their pioneering work on elucidating the quantum structure of electroweak interactions.

Gerardus 't Hooft is a professor in theoretical physics at the Utrecht University, Netherlands.

Lecture „The Unique Beauty of the Subatomic Landscape“  
on Thursday, 28 January 2010 at 16:00 in the Max Planck  
Lecture Hall, entrance Wiener Straße
